

Access Only Plan: Customer Overview

TIER CaseFlow - self-service subscription (as listed on www.tiercaseflow.com)

Thank you for your interest in **TIER CaseFlow**. This document summarizes the **Access Only** plan: the standard **self-service software subscription** for investigators who want full access to the application without bundled advisory services or assisted migration.

What Access Only includes

Per the public **Pricing** section on www.tiercaseflow.com, Access Only is described as a structured foundation for:

- **Case tracking**
- **Activity logging**
- **Voucher tracking**
- **Basic reporting**

Access Only provides **ongoing access** to the CaseFlow application for a recurring monthly fee. The amount in effect when you subscribe is always the one shown on www.tiercaseflow.com and on the **Stripe checkout** screen at checkout time. This document may mention a sample rate (for example, **\$75 per month**); if we change pricing, you will see the updated amount on the site and in checkout before you pay.

How to subscribe

1. Open www.tiercaseflow.com and go to **Pricing**.
2. Select **Access Only** and use **Choose Access Only** to complete checkout on **Stripe** (third-party payment processor).
3. Follow the email and setup instructions provided after purchase to access the application at **app.tiercaseflow.com** (or the production URL your organization uses).

Note: Access Only is **software only**. It does **not** include **Operational Advisory and Support** (also marketed as **Premium Support**), which is quoted separately and includes subscription access within that arrangement. Access Only does **not** include **white-glove onboarding** (optional migration and setup project, quoted separately). You may add those services later if you choose.

Optional upgrades (separate from Access Only)

- **Operational Advisory and Support:** Quote-based; see the separate customer overview for this tier if offered.

- **White-glove onboarding:** One-time project tiers (for example, small / medium / large) as described on the website; see the separate onboarding overview if purchased.
- **Founding Members Program:** Limited early-adopter offering with additional benefits; see www.tiercaseflow.com/founding-member if you are evaluating that program.

Client responsibilities

Your organization is responsible for accurate **case and activity data**, **user profile settings** (including contact email for attorney replies and reply routing), and day-to-day use of features such as the **Communication Hub** and **Report Hub**. TierCaseFlow provides the platform; your team operates it.

If you later move to or from Access Only

If you **upgrade to Operational Advisory and Support**, your quote should reflect that **subscription access is included** in that program; you should not maintain a separate Access Only subscription for the same coverage period. If you **end advisory support** and wish to **continue using CaseFlow**, you may return to **Access Only** for subscription-only access, consistent with checkout and billing processes in effect at that time.

Support and inquiries

Email support@tiercaseflow.com or use **Schedule Demo** on www.tiercaseflow.com for product questions or a guided walk-through.
